Statement from Chevron Corp. Executive Vice President Mike Wirth on Korean-U.S. Free Trade Agreement

“Chevron welcomes comments by President Obama in support of the Korea-U.S. Free Trade Agreement. We strongly support the FTA with South Korea, and we are hoping for Congressional approval. We firmly believe this agreement will prove to be a critical element of America’s energy security agenda and will serve to advance cooperation with a strategic energy partner that plays a vital role in meeting America’s and the world’s growing energy demand.”
