

# THE U.S.-KOREA FREE TRADE AGREEMENT BENEFITS FOR THE ILLINOIS ECONOMY

## Illinois Goods Exports to Korea 2004 - 2008

*Increased Trade with Korea = New Jobs for Illinois*

## Illinois Benefits Under the U.S.-Korea FTA

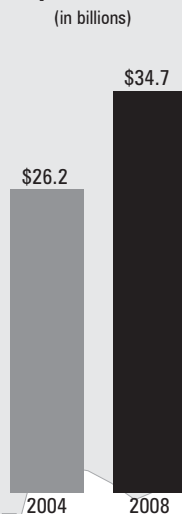

- ◆ The U.S.-Korea FTA will benefit the Illinois economy – and create new jobs – by immediately opening new access for Illinois goods and services in Korea’s \$1 trillion economy, and by establishing a level playing field in Korea for Illinois workers and businesses to compete.
- ◆ One half of chemical products, and many other manufactured goods produced in Illinois, will enter Korea duty free immediately. Tariffs on the remaining chemical products will be eliminated over the next few years.
- ◆ Korean duties on major Illinois agricultural products – such as soybeans and feed corn – will be eliminated immediately. Most pork products will become duty free on January 1, 2014.
- ◆ Simplified and expedited customs procedures will enable Illinois businesses to reach Korean customers more quickly and with less red tape.

**U.S. goods exports to Korea would increase by \$10 - \$11 billion, according to estimates by the U.S. International Trade Commission. More than 298,000 Illinois jobs are supported by goods exports (5.7% of the state’s private industry).**

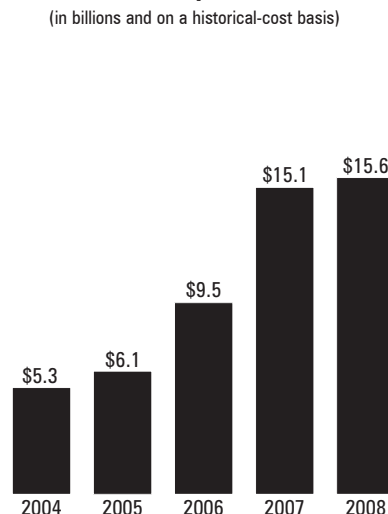

## U.S.-Korea Trade and Investment

- ◆ Korea is the 7th largest U.S. trading partner and the 5th largest U.S. market for agricultural goods.
- ◆ U.S. goods exports to Korea grew to nearly \$35 billion in 2008.
- ◆ U.S. services exports to Korea grew to \$12.7 billion in 2007.
- ◆ For every \$1 billion in exports, 6,250 manufacturing jobs are created or supported, according to U.S. Department of Commerce Secretary Gary Locke.
- ◆ Increasing U.S. exports to Asia – including Korea – by 1% would create approximately 250,000 U.S. jobs, according to President Barack Obama.
- ◆ Korean majority-owned affiliates in the U.S. employed 23,900 Americans at an average wage of \$64,310 in 2007.

# THE U.S.-KOREA FREE TRADE AGREEMENT COSTS OF INACTION FOR THE ILLINOIS ECONOMY

- ◆ The U.S.-Korea FTA was signed on June 30, 2007, but it has not yet been approved by the U.S. Congress. Since that time, Korea has successfully concluded a free trade agreement with the European Union that is expected to be implemented in 2010. Korea's FTA negotiations with Canada are also in the advanced stages.
- ◆ If the U.S.-Korea FTA is not implemented – but these other trade agreements are – Illinois workers, businesses, and farmers will lose sales and opportunities in the Korean market to their global competitors.
- ◆ **This will cost Illinois lost exports, output, and jobs.**

## Projected Loss of Illinois Jobs Due to Inaction on U.S.-Korea FTA Selected Industries

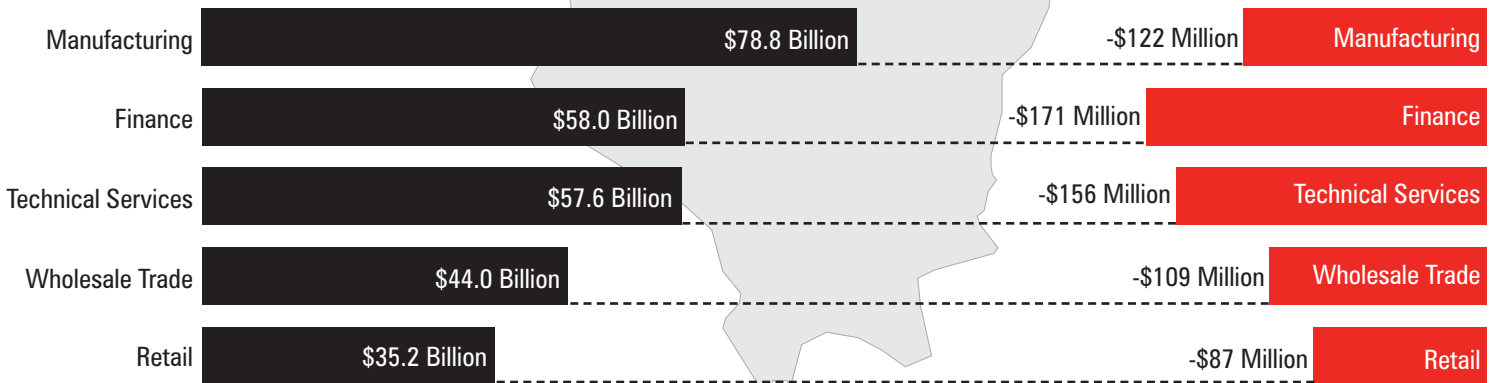

## Costs to Illinois and the United States of Failure to Implement the U.S.-Korea FTA

	<u>Illinois</u>	<u>United States</u>
<b>Goods Exports Loss</b>	<b>-\$909 Million</b>	<b>-\$20.3 Billion</b>
<b>Gross State/Domestic Product (output) Loss</b>	<b>-\$1.7 Billion</b>	<b>-\$40.4 Billion</b>
<b>Employment Loss</b>	<b>-14,607 Jobs</b>	<b>-345,017 Jobs</b>
