

# THE U.S.-KOREA FREE TRADE AGREEMENT BENEFITS FOR THE SOUTH DAKOTA ECONOMY

## South Dakota Goods Exports to Korea 2004 - 2008

*Increased Trade with Korea = New Jobs for South Dakota*

**U.S. goods exports to Korea would increase by \$10 - \$11 billion, according to estimates by the U.S. International Trade Commission. Nearly 11,000 South Dakota jobs are supported by goods exports (3% of the state's private industry).**

## South Dakota Benefits Under the U.S.-Korea FTA

- ◆ The U.S.-Korea FTA will benefit the South Dakota economy — and create new jobs — by immediately opening new access for South Dakota goods and services in Korea's \$1 trillion economy, and by establishing a level playing field in Korea for South Dakota workers and businesses to compete.
- ◆ Over 40% of medical equipment, and many other manufactured goods produced in South Dakota, will enter Korea duty free immediately. Tariffs on the remaining medical equipment will be eliminated over the next few years.
- ◆ Korean duties on major South Dakota agricultural products — such as soybeans, wheat, and feed corn — will be eliminated immediately.
- ◆ Simplified and expedited customs procedures will enable South Dakota businesses to reach Korean customers more quickly and with less red tape.

## U.S.-Korea Trade and Investment

- ◆ Korea is the 7th largest U.S. trading partner and the 5th largest U.S. market for agricultural goods.
- ◆ U.S. goods exports to Korea grew to nearly \$35 billion in 2008.
- ◆ U.S. services exports to Korea grew to \$12.7 billion in 2007.
- ◆ For every \$1 billion in exports, 6,250 manufacturing jobs are created or supported, according to U.S. Department of Commerce Secretary Gary Locke.
- ◆ Increasing U.S. exports to Asia — including Korea — by 1% would create approximately 250,000 U.S. jobs, according to President Barack Obama.
- ◆ Korean majority-owned affiliates in the U.S. employed 23,900 Americans at an average wage of \$64,310 in 2007.

# THE U.S.-KOREA FREE TRADE AGREEMENT COSTS OF INACTION FOR THE SOUTH DAKOTA ECONOMY

- ◆ The U.S.-Korea FTA was signed on June 30, 2007, but it has not yet been approved by the U.S. Congress. Since that time, Korea has successfully concluded a free trade agreement with the European Union that is expected to be implemented in 2010. Korea's FTA negotiations with Canada are also in the advanced stages.
- ◆ If the U.S.-Korea FTA is not implemented – but these other trade agreements are – South Dakota workers, businesses, and farmers will lose sales and opportunities in the Korean market to their global competitors.
- ◆ **This will cost South Dakota lost exports, output, and jobs.**
